CARA BUAT AUTO BACKUP DATABASE SIM KHANZA HMS [WINDOWS]

1. Install xampp

Pastikan jalan, autostart, DLL...

2. Buat backup.bat dari notepad copykan dibawah ini

cd C:\xampp\mysql\bin

mysqldump -uroot -h192.168.1.177 sik>D:\BACKUPSIK\sik.sql

Lokasi dimana kita simpan backup

3. Simpan dimana anda suka contoh:

4. Buat shortcut

Lokasi ip server

5. Ubah status menjadi administrator

Klik Advanced

6. Buka task Scheduler

7. Pilih creat basic task...

8. Buat nama backup

9. Atur task triger

10. Atur jam berapa auto backupnya

11. Pilih start program

12. Arahkan Brouse ke backup.bat (shortcut) yang sudah kita buat

13. Kita lihat sudah muncul disini

14. Tinggal kita tambahkan jam berapasaja mau automatic update >Doble klik>pilih yang kita buat tadi>Klik kanan>properties

15. Pilih triggres dan tambah jam berapa, kapan ada d situ
